B. Buildings and Grounds: Peter King stated that the Solar Project was previously scheduled to be completed in July but he has been informed that it may not start until July. This project is expected to last approximately 4-6 weeks. The parking lot paving now depends on the solar panel project. The RFID is now underway. The front entrance sidewalk has been completed and painting will begin after they finish the reconstruction of the front entrance.

It's been recommended that some computers be moved away from children. A wall could be removed in order to move the computers to a place where children can't see them.

C. Technology: Although Robert Lefkowitz was absent; he previously provided a written report. Emails: The library has successfully migrated from the state library system to Google's free solution. He recommended that personal email addressed for the trustee business should be discontinued. Website: Allan recommends that RFP's be requested for obtain a new designer to create a new site. Unauthorized Content: The Technology group met to discuss this concern of unauthorized content and indicates that it must be decided if the library wants to restrict content and what steps library personnel should take in response to discovering it. Tom said one of the reasons a person can get around the filtering system is because anybody who sits at the computer has "administrative permission" Howard recommended that Allan look into this.

**IX. Library Director's Report –**

Allan would like to close the library at 5:00 p.m. on June 20 because of the high school graduation, and will address this at the next meeting. They will not, however, need to close early for the 4<sup>th</sup> of July event because the only festivities will be fireworks in the evening.

There is an issue regarding parking every day in the afternoons by high school parents picking up their children which interferes with library programs being conducted during that time. Library patrons' cars are blocked in until the parents and students leave and upon Howard's recommendation, Allan notified the police. An officer was sent last Thursday to review the situation and Allan is awaiting more information. Mayor Braden said there is an ordinance that requires parking within designated areas and Howard recommended that Dr. Shorter handle this; perhaps sending a notice to the parents.
